

NEW 123 PRICE LIST (as at May 2023 – and indicative only and may be subject to change)

Broadly there are three 123 models sold.

1/ SWITCH – which has up to 16 factory settings for most model European, British cars.

2/ TUNE - A 123 model that uses a lap-top and USB cable to install and fine-tune the installed 123 set of curves. Up to two sets of curves can be loaded onto the TUNE 123. Cable not supplied.

3/ TUNE+ - Like above, but the 123 is installed by a mobile phone and uses Bluetooth connection. This model has a pin- code for the BT and enables the 123 to be used as an immobiliser.

More information can be found on the maker's website in The Netherlands - only here: www.123ignition.com . Please see their Support page for more information and access to the free 123 installation/tuning Apps.
